

COILED ROD SOLUTION

The Pro-Rod™ Advantage

Pro-Rod™ has earned the reputation as the industry-leader in the coiled rod market with our commitment to solving client challenges.

The Benefits of Coiled Rod

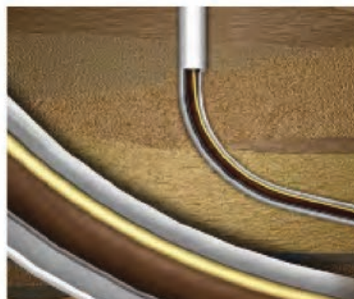

Conventional coupled rod

Coiled rod

INCREASED PRODUCTION

- Unrestricted flow and decreased pressure drops across couplings creates more production.
- Removal of rod coupling-piston effect facilitates laminar flow.

REDUCE WELL DOWNTIMES AND MAINTENANCE

- Eliminating couplings prevents an estimated 75% of rod string failures.
- Coiled rod distributes side loadings and reduces tubing wear.

'CAUSE WE GIVE A S#!T
